WHOLESALE TRADE LIST

SPRING & FALL - 1961

As we begin this new season, we want to extend our heartfelt thanks to our many friends and customers. Your generous patronage and your interesting letters have been most gratefully received.

TERMS

Our Terms are net cash with order unless credit is established.

NO DISCOUNTS ALLOWED

Small orders travel cheapest by mail, so please add sufficient postage. All extra will be refunded.

GUARANTEE: We guarantee good healthy stock, true to name. Nursery grown, State inspected, carefully packed to reach you in good condition. We, of course, cannot insure growth in your garden. Any error on our part will be cheerfully and carefully corrected, but at no time will we be responsible for more than the original price paid us.

MINIMUM ORDER—\$5.00. Due to high operating costs we do not accept orders for less than \$5.00. Please observe.

TWO TOP-NOTCH UNUSUALLY VALUABLE CREATIONS —THE CREAM OF MANY YEARS OF WORK

RIEGEL'S SUNBURST GOLD HEMEROCALLIS

This variety is known as seedling No. 170. Last year we introduced this unusual, outstanding Daylily which has proven itself to be superior to many other yellow ones. The many visitors who checked this variety in our garden consider it one of the best and most outstanding yellow varieties they have ever seen. The plant is very vigorous and strong. It is a good multiplier. The height is perfect—around twenty-four inches. The heavy stiff bloom stalks are like steel rods, the wind has no effect on them. The branching is very broad and well distributed. Practically sunproof. It is an unusually long bloomer. The shape of the giant triangular blooms is very attractive. Flowers recurve and last until midnight. The color is golden yellow. Fine for hybridizing because it has so many good qualities. Dormant.

Heavy 2 Plant Divisions — Each \$20.00
Three at \$15.00 each and Ten at \$10.00 each.

HARDY HYDRANGEA — RIEGEL'S ALL-SUMMER BEAUTY

The hydrangea family—the hardy type—which consists of about eight or ten standard varieties, has become a very important plant and appreciated for its great beauty from coast to coast. It has also become very popular with the landscaper as it is a very dependable plant. Through careful investigation we believe that our new All-Summer Beauty is the only everblooming hydrangea on the market. We have been growing this variety for quite a number of years, and it has proven to be very distinctive in its colors—blue or pink—depending on the Ph. of the soil. It seems to be unusually hardy and its blooming habit is wonderful as it blooms and blooms under practically all conditions. It has giant size blooms. Its continual blooming habit makes it unusually valuable in brightening the garden in August, September and October when most other plants are dormant.

2-Year Plants — Each \$2.00

HYDRANGEA BLUE CHINA BOY—A distinct advance. It is distinguished by an immense head, with each floret measuring 2 or 3 inches. Actually each stalk is a bouquet in itself when cut. Its prime point is its complete hardiness. It thrives in the coldest sections of the country. Color is intense blue; chemical components of the soil, of course, are factors in color intensity of all blue Hydrangeas.

2-Year Plants out of gallon cans: 10 for \$10.00
100 for \$50.00

MOUNTAIN FLEECE FLOWER (*Polygonum Amplexicaule Rubrum*) This is truly a different and unusual herbaceous shrub displaying a shower of fleecy flowers that are first white, then pink, and later a striking red. The flowers create a profusion of bloom amidst verdant foliage. The branches and stalks freeze back each winter, but more and stronger canelike stalks come again in early spring. Usually blooms in September and will brighten up any garden. Ultimate height 5 to 6 feet. Hardy and easily grown and will last a life-time. Rare and unusual plant for landscapers.

Each — \$1.00 10 for \$5.00

EUONYMUS JAPONICUS MICROPHYLLUS—Very attractive dwarf shrub with small, rich, dark green leaves. Ideal for evergreen border or specimen plants.

Strong rooted cuttings — 100 for \$10.00

HEMEROCALLIS OR DAYLILIES

For many years we have grown and propagated thousands of Daylilies and we have satisfied customers from coast to coast who look to us yearly for their supply of this ever increasing favorite in the perennial field. We have built up this wide, satisfied patronage by our uniform fair dealings, and the quality of the plants that we have supplied from year to year.

We want to assure our many friends, both old and new, that we shall maintain the same high standards in supplying your individual needs that have made us so many friends and satisfied customers in the wholesale field. Whether you buy one Daylily or hundreds we guarantee all our plants to be blooming size, strong and healthy, and true to name; accompanied by State and Federal shipping tags. Our gardens, comprising many acres of Daylilies, are open to the public the year round, and we invite you to visit us and see the finest display of Day-

lilies in the South. We endeavor to live by the Golden Rule and a trial order will convince you of our desire to please you in every way.

HEMEROCALLIS — DAYLILIES

The perennial supreme. The great Hobby plant. For maximum garden beauty with minimum labor, plant Daylilies. We list many of the new ones together with the old standbys at attractive prices.

We believe Hemerocallis to be the Perennial unsurpassed. We know of no other plant that will give you the beauty and pleasure for the time and money spent for it. They are the easiest of all plants to grow with the least effort.

Many people do not know of the great advancement that has been achieved by the plant breeders with this most wonderful flower. We now have them Early, Medium and Late, Reds, Yellows, Pinks and shades between, as well as two-toned, Dwarf, Medium and Tall Growers, Evening Bloomers, Repeaters as well as Everblooming varieties. They are at home all over the country and likely more indifferent to soil conditions than any other flower, but respond to good soil and fertilizer, with water in dry spells, especially at blooming time.

TO LANDSCAPERS

The Daylily is becoming increasingly popular as a Landscaper's plant.

DAYLILIES

FOR ALL-SUMMER SHOW AND BEAUTY

Dependable and sure when other plants fail.

DAYLILIES for easy culture. Divide and plant 12 months in the year, and when once in the ground they will hold forth until you return, no matter how long. DAYLILIES for borders and lines along driveways and lanes, round beds, square beds, and in every nook and corner, around pools and lakes, among shrubbery. They will fit themselves in perfectly.

(Minimum order — 500 plants)

If you are unfamiliar with named varieties of daylilies we would be happy to help you make selections. Let us know your specific needs and we will gladly assist in making selections.

LIRIOPE

(Sometimes listed as Ophiopogon or Mondo)

We are very proud of our fine stock of this excellent border plant. Some of the varieties we have listed are the result of many years of extensive selection to get the best and most hardy. We believe Liriope to be the most valuable border plant growing. It has so many good points that it fills the bill for an easily grown, dependable border subject. It will grow right up against a large tree in dense shade as well as in full sun. However, most varieties show up to the best advantage in partial shade. It is indifferent as to soils but likely prefers a soil on the acid side for maximum growth. Hardy to New York. In past years we have not been able to fill the demand. Cutting back the old growth once a year is recommended and February is a good time to do this, or before new growth starts in the spring. Do not set too deep. Crown should be slightly below ground level. Inorganic or commercial fertilizers are not necessary for Liriopes and if used at all should be used sparingly. Organic material is beneficial. Well rotted manure or compost worked into the soil before planting or used as a mulch is excellent.

BIG BLUE—Similar to Majestic in growth but has single flower spikes. This was the first named variety. It is a good grower.

Per 10—\$1.50

CURLY TWIST—This semi-dwarf, sturdy, stocky plant has the widest leaves of all—many $\frac{3}{4}$ of an inch wide, curled, and twisted. More cold resistant than any other. Foliage dark green. Grows low and very bunchy.

Per 10—\$2.00

GOLD BANDED—We are proud of this origination. Neat, 10 to 12 inch plants. Wide leaves with a gold edging or band on each leaf. Lavender bloom spikes.

Per 10—\$8.00

GRANDIFLORA—The giant among Liriopes. The shiny, dark green leaves are $\frac{1}{2}$ inch wide, and established plants will grow 2 to 3 feet high. A very showy specimen plant. The leaves arch over very gracefully.

Per 10—\$7.00

JAPONICA—Very low growing with narrow grass-like leaves. A fine low growing border and rock garden plant. Neat and attractive when established.

Per 10—\$1.00 Per 100—\$4.00

JOHN BURCH—The only wide leafed, variegated variety with coxcomb blooms. 10 to 12 inches high. Bloom spikes stand erect above the foliage. Leaves are dark green with a greenish-yellow stripe.

Per 10—\$6.00

LILAC BEAUTY—Neat, 12 inch plants. Dark green, wide leaf foliage. Has more bloom spikes and stands much higher above the foliage and lasts twice as long as any other variety. It is very showy when in bloom and is a valuable plant. We believe Lilac Beauty is the best all around Liriope in existence.

Per 10—\$10.00 Per 100—\$80.00

MAJESTIC—One of the best. Grows 12-15 inches high. Has beautiful violet colored coxcomb-shaped spikes in the summer that stand above the foliage, and last a long time. Should be planted 15 inches apart for good border. Also makes a nice specimen plant.

Per 10—\$2.00 Per 100—\$15.00

MONROE'S WHITE—This new variety from Monroe Landscape Co. is different and outstanding. Nice 12-inch plants. Good grower. Green foliage with white bloom spikes. Needs partial shade.

Per 10—\$3.50

MUSCARI EXIFLORA—The old-time, original, narrow, green leaf variety. Very hardy. Much used in Landscape work as a border plant and a bank covering.

Per 10—\$1.50 Per 100—\$10.00 Per 1,000—\$80.00

PURPLE BOUQUET—Extra wide leaf and light green. Single purple bloom spikes stand well above foliage. Medium height and very compact.

Per 10—\$6.00

SILVERY MIDGET—Formerly listed as Silvery Banded. A valuable, low, neat border plant. 6 to 8 inches high. Green leaves with a narrow white stripe or band on each leaf, giving a slightly variegated or silver effect. When established it makes very compact clumps and is especially good for bordering perennial beds.

Per 10—\$5.00 Per 100—\$35.00

SILVERY SUNPROOF—This variety has proven a great success as a border, urn and specimen plant. A good grower, 12 to 15 inches in height. Wide white and green striped leaves. Lilac colored flowers. It is in great demand.

Per 10—\$5.00

WONDER EVERGREEN GROUND COVER—This is a spicata or creeping type of Liriope. A real ground cover where grass refuses to grow. Also good in full sun. Fastest spreading of any Liriope we have tried but does not get out of bounds. Grows 8 inches high. Plant 12x12 inches for quick results.

Per 10—\$1.00 Per 100—\$4.00

HARDY HIBISCUS

The new Giant Hybrid Hardy Hibiscus can turn your garden into a beauty spot. These magnificent plants are the work of the noted hybridizer, Wm. Henderson of California. These Hibiscus can be grown from coast to coast and are winter-hardy all over the United States. Being Mallows, they die down in the winter, but come up in early spring and are soon in bloom. Nothing gives greater show in the garden. The giant blooms are spectacular. They can be planted anytime. Give these plants ample room and grow them in full sunlight. A rich, moist, well drained soil suits them best. A mulch of well rotted manure or compost will increase size of blooms.

BRILLIANT CERISE—An outstanding red that is a show with its huge 10-inch blooms. Good grower and prolific.

Each—\$2.50 10—\$20.00

CANDY HEART—Medium in size but makes up in numbers. Very prolific. Makes a fine show of light pink with veins extending from the throat up through the petals. This will make your garden gay.

Each—\$2.00 10—\$15.00

CLOWN—Flesh pink over ivory white. Dark red eye. Tips of petals deep rose. 9 inch flowers.

Each—\$2.00 10—\$15.00

GEORGE RIEGEL—Semi-dwarf in growth habit. 8 to 10 inch blooms with wide over-lapping petals of a silvery light lavender pink. Dark red eye. Worlds of blooms of perfect shape over a long season. Petals heavily fluted. An outstanding variety.

Each—\$3.00 10—\$25.00

GIANT MAROON—An extra large wide petaled flower. Produces quite a show of giant blossoms. An extra strong grower.

Each—\$2.00 10—\$15.00

LESTER RIEGEL—Blossoms large with wide petals. A rich raspberry rose. Very showy.

Each—\$2.00 10—\$15.00

LEWIS BECK—Robust grower and long blooming season. Extra large uniform blooms. Rose with pale lavender cast.

Each—\$2.00 10—\$15.00

PINK GIANT—Extremely large blooms of clear pink. Wide overlapping petals make this variety an outstanding beauty.

Each—\$3.00 10—\$25.00

PINK PERFECTION—Giant blossoms of perfect form. The coloring is very soft and dainty, a blending of rose and pink. It is really perfection in beauty and form.

Each—\$2.00 10—\$15.00

RED MIDGET—Dwarf habit of growth. 7-inch blooms of a dark satiny red. Blooms come in large clusters. A real red and different.

Each—\$2.00 10—\$15.00

RED PERFECTION—Medium in size and of perfect form. A beautiful rich red. It is crinkled and creped, and its fluffy petals make it exquisite.

Each—\$3.00 10—\$25.00

SNOW QUEEN—Gigantic white blooms with extra wide, overlapping, crinkled petals and deep red eye.

Each—\$3.00 10—\$25.00

SUPER ROSE—Beautiful satin pink. Small burgundy red center. Showy 10-inch blooms. Very prolific.

Each—\$2.00

HENDERSON'S GIANT HYBRID HARDY HIBISCUS SEEDLINGS (MALLOW TYPE)

(Seedlings of the above varieties)

Becoming very popular as a summer blooming plant. 8-10 inch gorgeous blooms set gardens aflame. All shades of red, pink, rose and white with red eye. Hardy from coast to coast. Can be reset bare-root any time of year, even may be dug when in full bloom, cut to short stubs and will quickly rebloom. Landscaper's delight. Fine can plant, and especially adapted to mail order business. They grow 3 to 4 feet high and always attract attention. Three grades, all blooming stock, mixed colors. No selection of colors.
